

CATCHER FIELD PIPELINE GATES

After installation of the new Catcher Pipeline, six 'safe gates' were opened in October 2015 following SFFSL overtrawlability trials. Using the chain mat to smooth out any mud mounds at these localities, then trawl gear to simulate normal fishing for the area, all gates were declared clear for fishing activity to resume.

Gate 1 -	56° 45.382'N 000° 46.260'E	to	56° 45.529'N 000° 45.390'E
Gate 2 -	56° 43.613'N 000° 57.921'E	to	56° 43.578'N 000° 58.400'E
Gate 3 -	56° 43.502'N 000° 59.098'E	to	56° 43.464'N 000° 59.566'E
Gate 4 -	56° 43.441'N 000° 59.858'E	to	56° 43.411'N 001° 00.347'E
Gate 5 -	56° 42.432'N 001° 22.379'E	to	56° 42.489'N 001° 22.952'E
Gate 6 -	56° 42.499'N 001° 23.953'E	to	56° 42.448'N 001° 24.448'E
